FOR B.TECH, BCA, MCA STUDENTS AND RECENT GRADUATES

Track picker + *college internship* guide.

Before you pay anyone for an internship, find out what your college actually asks for. This guide shows the usual rules, the six questions to ask your training and placement cell, and how to choose between a 3-month and a 6-month programme.

1
See what colleges usually ask for (page 2).

2
Ask your college the six questions (page 2).

3
Match your rule to a programme (page 3).

WHAT COLLEGES USUALLY ASK FOR

Common internship rules, *in one table.*

Taken from the public documents listed on page 4, as published when we checked in October 2026. Your scheme year or department may differ, so treat this as a starting point and confirm with your own college.

BODY OR UNIVERSITY	WHAT THE DOCUMENT ASKS FOR
AICTE internship policy (B.Tech)	Short internships during the summer breaks: about 3 to 4 weeks after semester 2, and 4 to 6 weeks after semesters 4 and 6
UGC guidelines (UG courses)	An internship of about 60 to 120 hours (2 to 4 credits), often counted in hours rather than weeks
GGSIPU (affiliated B.Tech colleges)	4 to 6 weeks of summer internship or industrial training
AKTU-affiliated colleges	4 to 6 weeks, or about 45 days, of internship or industrial training
MDU Rohtak	B.Tech: 4 to 6 weeks. BCA: an 8-week internship in the newer scheme
J.C. Bose UST (YMCA), Faridabad	Computer Engg. / IT: a 6-month internship in the final semester (January to June)
Manav Rachna (MRIIRS), CSE	A 24-week internship in semester 8

STEP 2: ASK YOUR COLLEGE THESE SIX QUESTIONS

1. **How long?** How many weeks or hours must the internship be, and does training time count?
2. **When?** Which dates must it fall between, and when is the report or letter due?
3. **Online?** Is an online (remote) internship accepted, or must it be on-site?
4. **Paperwork first?** Do you need an NOC, or an offer letter before you start?
5. **Format?** Is there a college format for the letter, the weekly diary or the final report?
6. **Which company?** Must it be a registered company? Any other conditions?

WHICH GOFORGE PROGRAMME FITS?

Two programmes, *one standard.*

Both are live online, include a supervised internship on a project, and end with a training certificate and an internship letter that carries an ID your college can verify.

3-MONTH PROGRAMME

₹1,499 festive launch price, all-inclusive

1 month training | 2 months internship

- For a 4 to 8-week summer or semester internship
- For 1st to 3rd-year students who want a first real project
- Also fits most 60 to 120-hour requirements

6-MONTH PROGRAMME

₹1,999 festive launch price, all-inclusive

3 months training | 3 months internship

- For final-year students and recent graduates
- For deeper training and a portfolio to show employers
- For longer, final-semester requirements (see the note below)

AN HONEST NOTE

If your college needs 6 months (or 24 weeks) of internship on its own, ask whether the training months count. If they do not, tell us on the call and we will say plainly whether a programme fits.

YOUR LETTER INCLUDES

Goforge Digital, your name, college and course, role, exact start and end dates, that the work was online, a summary of your work, hours on request, and a named signatory with phone and email.

NOVEMBER 2026 BATCH · LIVE ONLINE

Weekday batch

Mon to Fri, 7:30 to 9:00 PM IST. Starts Mon 2 Nov. Fridays are doubt and project sessions. Diwali break 7 to 11 Nov; classes resume Thu 12 Nov.

Weekend batch

Sat and Sun, 11:00 AM to 2:00 PM IST, with a 15-minute break. Orientation Sun 1 Nov; classes from Sat 14 Nov.

Only 25 seats per batch. Registration closes Wed 28 Oct 2026. Every class is recorded. Exam-friendly: pause during your college exams, or switch once to the January 2027 batch at no cost.

STRAIGHT ANSWERS

Check these *before you pay anyone.*

Is it AICTE approved?

No. Goforge Digital offers private industry training and an internship as an MSME (Udyam) registered software company (UDYAM-HR-03-0170735). It is not an AICTE-approved course. Many colleges accept internships with registered companies, but only your college can confirm that.

No job guarantee

We do not promise jobs or placements. What you get is training, a supervised project, and documents that can be checked.

Your checklist

- I know the weeks or hours my college needs
- I know the dates and the submission deadline
- My college accepts an online internship
- I have asked about an NOC or a letter format
- I have read the refund policy (goforgedigital.com/refund)
- I know the full price, and that nothing is due before a call
- I can check the certificate ID at goforgedigital.com/verify

Next step

Book a free 15-minute counselling call at **goforgedigital.com/internship**. Bring your college rule and deadline, and we will suggest the programme and batch that fit, or tell you honestly if neither does. Refer a friend: they get ₹200 off, and you get ₹200 by UPI once they complete their first week.
